

An Afternoon Frock and an Evening Wrap

DESCRIBED BY OLIVETTE

THE downward slope from the front to the back of the hip drapery is carried out in the original model of an afternoon frock on the left.

It is made of light blue satin, with silk and silk veil. The bodice, of silk veil lined with white, is made in the broad kimono style. It is cut V shaped in front, and is edged with a broad band of black velvet, forming a strap line over the shoulders. The sleeves, which are unusually long, are gathered full and tight at the wrists in a small bracelet of veil, finished with a flounce of Arabian lace. A small crossed yoke of this white goods, trimmed with a flounce of lace like that on the cuffs, forms the front of the bodice.

The waist band of black velvet is so wide that it makes not only the belt, but the first tunic, encircling the hips.

Under it there is a second tunic made of blue silk veil slightly wired, and completed at the hem with a narrow piping of black velvet.

The underdresses is of charmeuse, slashed to the knees and draped up on each side with the fullness drawn to the front.

The effect in the back is that of a double pannier with panniers over the hips under the wired tunic.

The very modish evening wrap on the right is cut on the fashionable and comfortable kimono lines. It is draped in front and is trimmed both on the bottom hem and on the high cuffs with a wide heading of velvet. A broad collar of white fox covers all the upper part of the wrap front and back. The wrap is lined with a citron-colored satin.

MANY RECOVERIES

FROM LUNG TROUBLE

A medicine for Throat and Lung Trouble which has been thoroughly tested for many years, and which has been instrumental in restoring complete health to a large number of sufferers, should be thoroughly investigated by everyone. While no undue claims are made for it, nor any guarantee that its use will restore health, Eckman's Alternative has been given the full credit in saving lives in many cases. Read this case:

Wilmington, Del.
"Gentlemen:—In January 1908, I was taken with hemorrhages of the lungs. My physician, one of the leading practitioners of Wilmington, Del., said that it was lung trouble. I took eggs and milk in quantities, but I got very weak. Mr. C. A. Lippincott, of Lippincott & Co. Department Store, 206 to 214 Market street, Wilmington, Del., recommended to me Eckman's Alternative that had done great good, and upon his suggestion I began taking it at once. This was about June, 1908. I continued faithfully, using no other remedy, and finally noticed the clearing of the lungs. I now have no trouble with my lungs. I firmly believe Eckman's Alternative saved my life." (Affidavit). JAS. SQUIRES.

(Above abbreviated; more on request.)
Eckman's Alternative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stomachic Colds and in upbuilding the system. Contains no narcotics, poisons or habit-forming drugs. Sold by leading druggists. Write the Eckman Laboratories, Philadelphia, Pa., for booklet telling of recoveries and additional evidence. TUCSON, ARIZ., MAY BE MILITIA MOBILIZING POINT

Phoenix, Ariz., Dec. 5.—Adjutant general Charles W. Harris has received from the war department \$2000 for the drilling of a well and installation of a pump on the Wilcox rifle range, near Tucson. It is believed that this means that the department has selected the Wilcox range as the permanent mobilization point for the national guard of Arizona. A year ago Fort Whipple, on the outskirts of Prescott, was selected, but Col. Harris protested that the winter climate of Prescott is not favorable for the mobilization of troops. Tucson was his choice. It is expected that the department will soon erect some wooden store-rooms at the Wilcox range for use during encampments.

HONORS FOR FOUR EL PASO SURGEONS

American Institute of Surgery Confers Fellowships Upon Crouse, Witherspoon, Vance and Carpenter.

The convocation exercises of the newly organized American counterpart of the Royal College of Surgeons of England was held in Chicago on November 12th. One thousand fifty surgeons were admitted to the organization, 22 of whom were from Texas, and four were El Pasoans—Drs. Jas. Vance, L. G. Witherspoon, H. W. Crouse and E. R. Carpenter.

The names of candidates are brought before the organization by recommendation of friends already members, or by direct application; however, before a man is elected his qualifications must have been unanimously approved by four different committees. In order to be eligible for membership, a candidate must have been in the active practice of surgery in his own town or in a general practice for five years, exclusive of internships and assistantships; and shall have made some original contribution to the science of surgery; the mere publication of a series of meaningless research experiments or clinical cases is not sufficient—the work must have merit as determined by a committee composed of teaching surgeons.

After this year all applicants, before they are even eligible for consideration, must stand a preliminary examination in surgery, surgical pathology, anatomy, physiology and operative technique upon a cadaver, equivalent to the routine examinations required in the subjects at Johns Hopkins Medical school (Baltimore) or McGill University (Montreal).

"Don't be hoodwinked by any person who claims you have dropped your handbag and shows you a pocketbook containing money."
